DETAILED ACTION

Response to Communication(s)

1. This Office action is in response to the Appeal Brief filed on March 5th, 2009. In view of the following new grounds of rejection, the previous final Office action has been withdrawn. Claims 1-59 are now pending in the application.

Allowable Subject Matter

2. Claims 1-59 are allowed. The following is an examiner's statement of reasons for allowance:

The Applicants' comments/arguments in the response filed 03/05/09 (see Appeal Brief; page 2-10) have been fully appreciated and considered. The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed apparatus (claims 35 and 59), system (claims 1 and 52) and method (claim 18) for establishing an IP connection with a terminating node, comprising, among other limitations, a novel and unobvious limitation of "whereby the terminating node, upon being notified of incoming data, is configured to register with the intermediate node to thereby enable Internet Protocol IP communication between the originating node and the terminating node via the intermediate node." structurally and functionally interconnected with other limitations in a manner as recited in claims 2-17, 19-34, 36-51 and 53-57.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
